

Information

The „Society for the Promotion of Palynological Research in Austria“ was founded in 2005 at the Institute of Botany, University of Vienna. Here an excerpt from the statutes:

- Promotion and intensification of the research of pollen and spores.
- Structure, promotion and advancement of new media as well as electronic databases (in particular www.paldata.org) for the palynological research.
- Knowledge transfer and publication of current research results in Palynology.
- Promotion scientific new generation in the area of Palynology.

For a more in-depth information on our goals as well as on the society, executive committee, statutes etc. please visit our homepage at www.autpal.at.
